

## KORO® BY IMANTS® FTM® 1.2 / 1.6 KORO® FTM® 1.2 / 1.6

The KORO® FTM®1.2 & 1.6 are heavy-duty fraze mowers for removing unwanted surface matter such as poa-annua, including seed bank thatch, weed management, or the entire surface for returfing. It is standard with a side arm elevator (that folds up for transport) to remove debris directly into a trailer. The KORO® FTM 1.2 and 1.6 are ideal for fine turf applications especially with the remodeled machine including the tungsten rotors. KORO® has optional rear chute and side wheels or mid roller.

### SPECIFICATIONS

	1200	1600
Working width	1.20m	1.60m
Overall width	2.02m	2.28m
Working depth	0 - 50mm	
Weight	792kgs	885kg (depending on rotor fitted)
Power requirement	Creep speed or hydrostatic drive required	
Tractor requirement	540 pto. 30ltr/min hydraulic flow. 2 x double acting spool	
Operating speed	0 - 4 kph depending on the rotor configuration
