## **2000 FIELDTOPMAKER®**

The Koro Field Top Maker (FTM) 2000 is a heavy-duty fraise mower, for removing unwanted surface matter such as poa-annua, thatch, weeds or the entire surface to a depth of 50mm. A side arm conveyor removes debris directly into a trailer, leaving a level, even surface. The FTM 2000 is designed for sports turf applications like football & rugby pitches, turf farms, etc. Several new, optional rotors allow the FTM 2000 to be used for a variety of different surface renovations, including scarifying, surface planing, brushing and the cleaning out of organic matter from fibre- reinforced pitches. The elevator folds flat for transport.

### **SPECIFICATIONS**

<b>Working width</b>	2.00m wide
<b>Overall width</b>	2.55m wide Working
<b>Working depth</b>	0 - 50mm
<b>Weight</b>	1355kgs(depending on rotor fitted)
<b>Power requirement</b>	100HP. Creep speedor hydrostatic drive required
<b>Tractor requirement</b>	540 pto. 30ltr/min hydraulic flow. 2 x double acting spool
<b>Operating speed</b>	0-2kph() with digging rotor and Terraplane® rotor 0 – 4kph for Universe® rotor
<b>Optional Accessories</b>	Mid mounted roller
