ShockWave Compact Series 100 / 155 / 210

The Imants ShockWave is a linear decompactor, designed to revitalise heavy wear areas by relieving soil compaction, improving aeration and removing surface water. The Imants ShockWave is reputed to be the world's fastest PTO driven rotary, linear decompactor. The ShockWave is designed for use on fine turf, including Golf Greens and sports fields. As with all ShockWave models, it features a no-chains, direct drive design, maintenance free 'sealed for life' bearings & no shearbolts.

SPECIFICATIONS	100	155	210
Working width	1.00m	1.55m	2.1m
Transport Width	1.20m	1.75m	2.3m
Working depth		120mm – 250mm	
Number of Blades	12	18	24
Blade thickness	12mm	12mm	12mm
Blade spacing		250mm	
Weight (approx.)	475kg	580kg	630kg
Power requirement	25-45HP estimated	30 – 50HP estimated	40 – 60HP estimated
Tractor requirements	540PTP, creap gear or Hydrostaic drive		
Operating speed	– operating speed 0.5 – 2.4 kph
