

## VREDO® SINGLE COMPACT

The Single compact series is a unique and versatile overseeder that be used in a wide range of situations. An all-rounder featuring a single row of discs giving row spacing of 70 mm. This gives the machine the perfect weight to work width ratio, allows it to be mounted on tractors with a relatively low lifting capacity and comes at an attractive price.

- LED lighting
- Electronic surface counter (Metric/ Imperial)
- Contour-following front support wheel mechanical drive
- Sowing table showing the most commonly used grasses
- Seed level indicator
- Seed dispenser with twist-cap for catching residual seed
- Sharp cutting discs Ø 250 mm in diameter
- Maintenance-free variator with stepless dosage adjustment
- Integrated weights holder for ergonomic suitcase weights
- Smooth pressure roller Ø 220 mm with self-adjusting scraper
- Large volume seed hopper with agitator shaft
- Compact calibration tray
- Progressively sprung Sowing elements spaced 70 mm apart

## SPECIFICATIONS

<b>Seed dosage</b>	Stepless 3 to 190 kg/ha
<b>Disc diameter</b>	Ø 250 mm
<b>Element</b>	Progressively sprung 0-20 mm sowing depth
<b>Turf guard</b>	Adjustable
<b>Pressure roller</b>	Ø 220 mm with self-adjusting scraper
<b>Calibrating</b>	Calibration table, Newly improved calibration tray section

Type Single compact	GPS Working width (cm)	Transport width (cm)	Row spacing (mm)	Volume of seed hopper (l)	Weight (kg)	Recommended 20 kg weights	Tractor power	Depth adjustment	Dimensions l x w x h (cm)
100	98	115	70	165	400	4 (480)	20 HP	Top bar / roller	105.5 x 115.0 x 108.5
